Cap Release- Button 3
(three raised dots)

Plunger Tab- Button 1
(one raised dot)

Cervical Cap (inside)

The Cervical Cap is within the condom.

CAUTION:

Always hold the Cap upright, touching only the outer surface.

Extract the CERVICAL CAP, keeping upright. Discard the condom shroud.
**Insertion**

Insertion is best done in a reclining, supine position as shown. Use pillows for support. Make yourself comfortable.

1. **Place the Cervical Cap in the Applicator**
   - Wash hands thoroughly with soap and water.
   - Remove the yellow shipping wrap by pulling on the tab as shown in the image to the right.
   - Remove the yellow petal spacer by pulling from the top as shown in the images to the right and below.
   - Place the CERVICAL CAP onto the open CAP HOLDER, as shown.

2. **Ensure the CERVICAL CAP is in place, then gently squeeze the inner CAP HOLDER closed. You will hear a “click.” You will know the CAP is in place when the rim of the CAP rests evenly on the ridges of the two PETALS of the device.**

3. **Insertion**
   - Insertion is best done in a reclining, supine position as shown. Use pillows for support. Make yourself comfortable.
   - Holding the APPLICATOR as shown, introduce it into the vaginal tract with the single raised dot (button 1) until the PLUNGER TAB stays back on its own. You will feel a slight resistance; hold the Stem firmly, while pulling back on the PLUNGER TAB until you hear a “click.”

4. **Release the CERVICAL CAP by depressing the CAP RELEASE BUTTON with 3-raised dots (button 2).**
   - Release the PLUNGER by depressing the PLUNGER RELEASE BUTTON with 2-raised dots (button 1). You will hear a “click.”

5. **Release the CERVICAL CAP**
   - While keeping the APPLICATOR against the cervix, depress the PLUNGER TAB to open the CERVICAL CAP.
   - Insertion is best done in a reclining, supine position as shown. Use pillows for support. Make yourself comfortable.

6. **Release the CERVICAL CAP by depressing the CAP RELEASE BUTTON with 3-raised dots (button 3).**
   - Release the CERVICAL CAP by depressing the CAP RELEASE BUTTON with 2-raised dots (button 2). You will hear a “click.”

7. **Remove the APPLICATOR and discard.**
   - Remove the APPLICATOR and discard. The Removal string is now exposed.

**Storage & Use**
